

## PENTEK BFS/BBFS SERIES

### BASIC FILTRATION SYSTEMS

PRE-ASSEMBLED SYSTEMS WHERE SPACE IS LIMITED

Pentair<sup>†</sup> Pentek<sup>‡</sup> BFS and BBFS Basic Filtration Systems consist of either two or three filter housings, which are mounted in series, a wall-mounting bracket and hardware.

The BFS-201 features two 3/8" NPT low-profile Slim Line Housings in series for installations where space is limited. The BBFS systems consist of a series of large-capacity 1" NPT #20 Big Blue housings allowing for greater cartridge capacities and higher flow rates. All systems are equipped with a pressure relief button to relieve housing pressure during cartridge changes, and are shipped completely pre-assembled, saving valuable installation time.

All filter housings are manufactured of a durable polypropylene, have excellent chemical resistance and are ideal for many residential, commercial and industrial applications.

#### FEATURES/BENEFITS
